

Think.com Training

This session focuses specifically on how to use the education platform, Think.com.

Resources: Full teaching plan with extension activities.

Overall Aim of the day:

For teachers to feel confident about using Think.com and teaching phase I.

Learning Objectives:

1. To be familiar with the aims and the outcomes of phase I.
2. To have an overview of phases II – IV.
3. To be able to navigate www.think.com
4. To have set up accounts on www.think.com for all WebPlay pupils.

Activities include:

- Watch video overview of WebPlay in action in the classroom
- Net safety – how to teach pupils to stay safe on line.
 - Using ChildNet resources and the SMART rules.
- Navigation of www.think.com
 - How to log on and change passwords
 - How to create content on your personal webpage
 - How to create interactive content on your personal webpage
 - How to create hyperlinks of your personal webpage
 - How to post multi-media on your personal webpage
 - How to find other people on www.think.com and communicate with them on their personal webpages.

- Administration of pupil accounts on www.think.com
 - How to create users
 - Reviewing content, blocking & flagging inappropriate content
- What support is there for you?
 - Think.com
 - WebPlay team, including our seconded teacher
- Problem solving
